Dear Sharon:

I have had an opportunity to review the documents provided to us in the May 31, 2022 emails from EPA.

Our review shows of these emails indicates to us that the record is not complete.

While there are final approved documents, the supporting correspondence reflecting negotiations and discussions (including drafts) for the Eastern Plume and for the common elements among the plumes is not included.

It is important to reiterate that our clients are bound by the terms and conditions of the Order. As we conveyed to you on May 24, 2018, Utility and Nest would be participants in the Eastern Plume process and unfortunately were not included in the process, and we were not copied nor did we received these documents that directly impact our clients, Utility and Nest.

Please let us know if these additional documents will be made provided to us. I am available to discuss these documents with you.

Thank you in advance for your consideration.

Regards,

John

Hi John and Miriam,

Attached are the documents you requested. I will be sending in 2 emails because I think they are too big for one.

I hope you are both well.

Sharon
